# The new SOLAR roll insect screen door

The new SOLAR roll insect screen door fitted on the doorframe is easy to install and lightweight. And when installed, it is almost invisible. The SOLAR roll is also safe: the door automatically rolls up if someone runs into the screen.

## SOLAR roll - EASY TO INSTALL

Fasten the counterpart.

Fit the upper track into the cassette part and push it into the counterpart of the previous picture. Fasten the upper track.

Fasten the threshold part and then the cassette part.

Finish the fastenings.

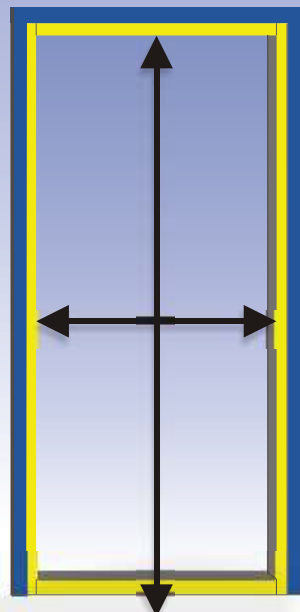

The SOLAR insect screen door is now in place.

Colors: - white  
- brown  
- bronze

### Measure the height and width of the door opening.

The standard size SOLAR roll door fits if the height of the door opening from the floor is  
- 2010 - 2055 mm to the upper edge of the door opening  
- the door opening width is 500 - 810 mm  
- the door opens out

The SOLAR roll can be delivered custom measured.
