SOLAR sandy

Insect screens

SOLAR sandy is the country's broadest insect screen range. You can find the most practical and durable solutions. The SOLAR sandy insect screens are easy to install, sturdy and stylish, and when installed, almost invisible. The SOLAR sandy can also be fitted with an aluminium screen! The SOLAR sandy insect screen is available in shapes, colours and sizes according to your wishes. Standard colours include white, brown, beige and grey. There is also a wide selection of special colours.

Install an allergy filter - And let the clean summer breeze come in

Now you can install allergy screens yourself. SOLAR filters are fastened to the window screen frame quickly and easily

Filter classes:

Filter class EU4 dust filter

Filter class Eu7 electrostatic

Pollen filter (good air flow)

Choose the dust or pollen filter.

And enjoy fresh summer air in your home.
